

Student Testing

Standardized Achievement Tests, taken in grades 2–10, may include the *Stanford Achievement Test*, *Iowa Test of Basic Skills* or the *California Achievement Test*.

Grace and Glory Academy encourages families who are interested in testing their students, to use the Christian Liberty Press-California Achievement Test services.

Many home educators would like to use achievement tests to evaluate their children's progress at home, without the need for someone else to administer the tests in a facility. To aid such families, Christian Liberty Press has developed its own testing service. For many years, they have provided testing in basic skills with the nationally-recognized California Achievement Test (1970 edition). Tests will give you an accurate assessment of your children's abilities and aid you in selecting appropriate school materials.

The Christian Liberty Press California Achievement Test will cover Math, Reading and Language Arts only.

Christian Liberty Press also offers an additional, Recommendation Service for \$18 per student. The Curriculum Recommendation Service begins with a thorough examination of the student's abilities as revealed by the placement/achievement test results; then they will recommend a specific curriculum for your student. All textbook recommendations are accompanied by information about how you may order the materials. *Christian Liberty Press still uses the older version of the nationally normed achievement test, California Achievement Test, because the newer editions reflect a lower academic standard.*
